

Epic Tier 2 Support

If you could instantly remove all support work from your Epic team....

Could you implement more features, optimizations, and enhancements?

Could you improve your end-user adoption and satisfaction?

Could you take the time to involve operational leadership in Epic build decisions?

Could you achieve HIMSS Stage 7?

Sustainable Solutions With Remote Epic Support

- ◀ Right sized support tailored to your specific organizational needs (basic to advanced support options available).
- ◀ System optimization & enhancement ideas are generated and regularly communicated back to you to support your changing needs.
- ◀ Team expertise and approach resulting in best practice support – over 30 years of proven success.
- ◀ LinkEHR's consumption based pricing provides a flexible cost model.
- ◀ LinkEHR delivers value while eliminating the overhead of travel expenses of other support firms.
- ◀ LinkEHR's model results in a higher average resource skillset, increased efficiencies, and an overall lower cost.

Our Team

LinkEHR certifications span the entire spectrum of Epic applications, giving us a well-balanced team with operational and technical skills to analyze and resolve the most complex of technical and workflow issues.
